**How to install Feather contacts on my Chameleon® III receiver or on my Chameleon® Extender?**

To install Feather contacts on your Chameleon®III receiver (or on your Chameleon® Extender) please observe the following instructions:

1) Unscrew the contact points

2) Unscrew the white plastic screw

3) Make sure to place a metal washer inside each hole
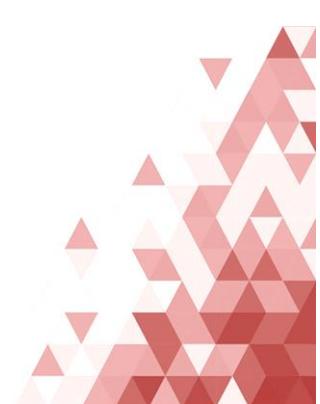

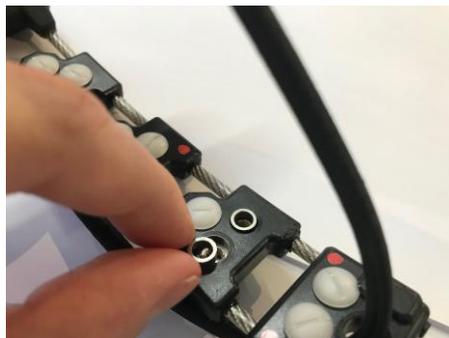

4) Install a "12mm grub screw" (with the tip at the outer part) inside each hole

5) Place the Feather contacts around the grub screws

6) Screw a white plastic bolt on each grub screw

7) You now use (and charge) your Chameleon® with the Feather contacts

If you still have any questions, we look forward to receiving your e-mail: info@martinsystem.com
